Leadership Position in Connected Mobile Worker Solutions

Key Differentiators

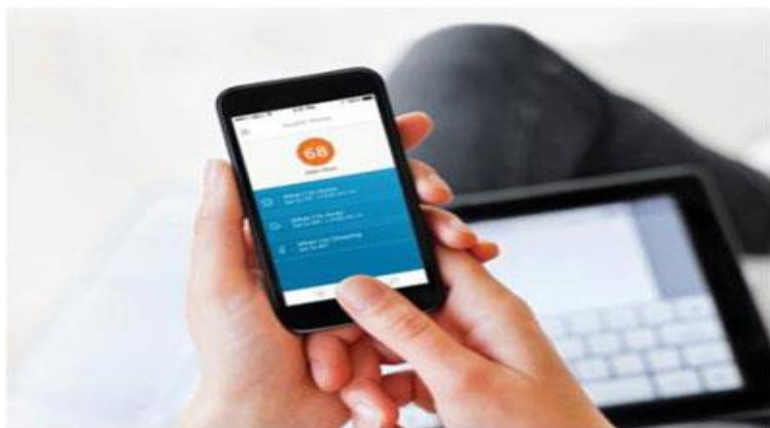

- Industry leadership, reaching 500M+ workers annually
- Breadth of connected portfolio across safety and productivity in industrial verticals
- Leadership position in sensor and control technology to enable the connected world

Robust Portfolio of Solutions Leveraging Connectivity and Software

- Software Solutions
- Hardware

- Connecting Safety and Productivity Offerings

Global Tracking - Markets

Asset Tracking – Product Portfolio

SAT-401 : Yacht Tracking solution

- Next generation,
- Reliable Land/Maritime tracking (IsatM2M)
 - Inmarsat network uptime: 99.999%
 - Commercial/Military/Government
- 3 inputs/outputs for optional sensor monitoring (temperature, humidity etc)
- Data logging

Tough Tracker : container tracking solution

- Quad-band GSM/GPS-based tracking device
- Extremely rugged: “Built like a tank”
- **Maintenance-free: set it and forget it**
- Battery life: **5-10 years**

ViewPoint: Integrated to SAR and AIS systems

- Web-based Mapping & Tracking Application
- OTA terminal activation and configuration
- Geofences: Routes, Waypoint and Checkpoints
- Reports – Usage, Speeding, Idling
- **Improves safety and supply chain efficiency**

TAM Series: Best in class Cargo tracking solution (multiple IOs)

- Battery-powered satellite terminals
- Tracking & Monitoring
 - Vehicles, cargo, trailers
- Easy installation
- Options include external sensors and cables
 - Door open, Panic Alert

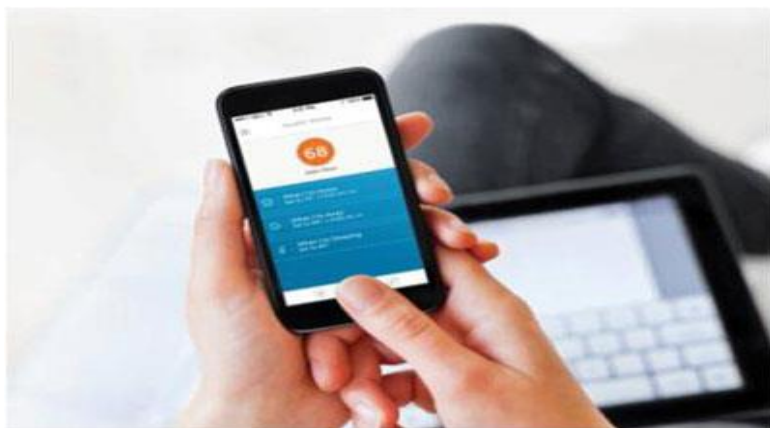

Personal Tracker NG : Multi brand based satellite Solution

- Portable satellite tracker
- Seamless integration with your Smartphone
- Duty of Care, Global Remote worker visibility
- 2-way communication
- IP 67 and C1D2 certification

Personal Tracker – NG – available 09/2016

Voice for Maintenance and Inspections

Honeywell introduced the new Vocollect Voice Maintenance and Inspection solution for the Maintenance, Repair and Overhaul of high value assets that have:

- Defined process and steps
- Structured data input & output
- Hands-busy, eyes busy environment
- Need for guidance and documentation

Initial Market Focus

- Aviation Maintenance
- Truck Fleet Maintenance
- **Cargo Inspection**
- **Vessel Engine Inspection**

Simplify. Standardize. Perform.

With Honeywell's VoiceInspect Solution technicians are more focused and spend more of their time delivering quality service.

Capture data more quickly and intuitively

VoiceInspect's speech recognition enables technicians to input data real-time while servicing an asset simply by speaking responses

Guarantee process compliance

VoiceInspect guides technicians through a step-by-step checklist, ensuring no task is skipped

Accelerate onboarding of new technicians

VoiceInspect dramatically reduces the time it takes for a new technician to be effective and operate at maximum capacity with its step-by-step voice prompts

Customer Success

Honeywell Aerospace

Induction Process for Jet Engine Auxiliary Power Units (APUs) live since June 2014 with 35+ mechanics using voice system

SAVINGS WITH VOICE

30%+

reduction in data entry cycle time

Large Truck Fleet Company

Preventive Maintenance and repair of Penske owned and leased trucks with a fleet of 206,000 Trucks serviced across 500 locations with 4000 techs

25%

reduction in inspection time

Lufthansa Technik

Maintenance and induction of APUs at one site Live since 2015. Multiple mechanics trained and using the system

Up to
30%

reduction in inspection time
