China – Greece Sea Roads of Trade The Security Challenge

Hellenic Navy Captain (ret) Ioannis Panou
Operations Manager

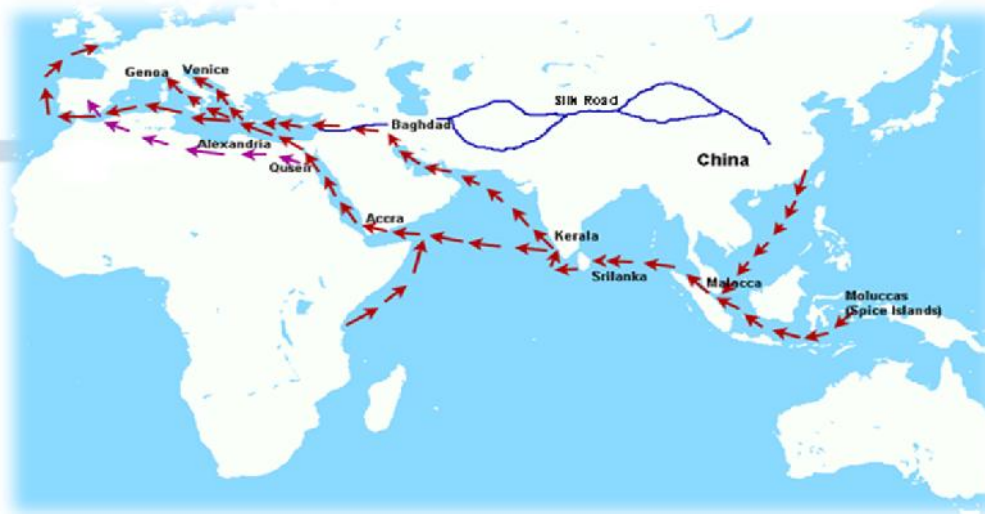

UNITED GUARDS SERVICES Ltd

Dedicated, Quality Maritime Security
& Training

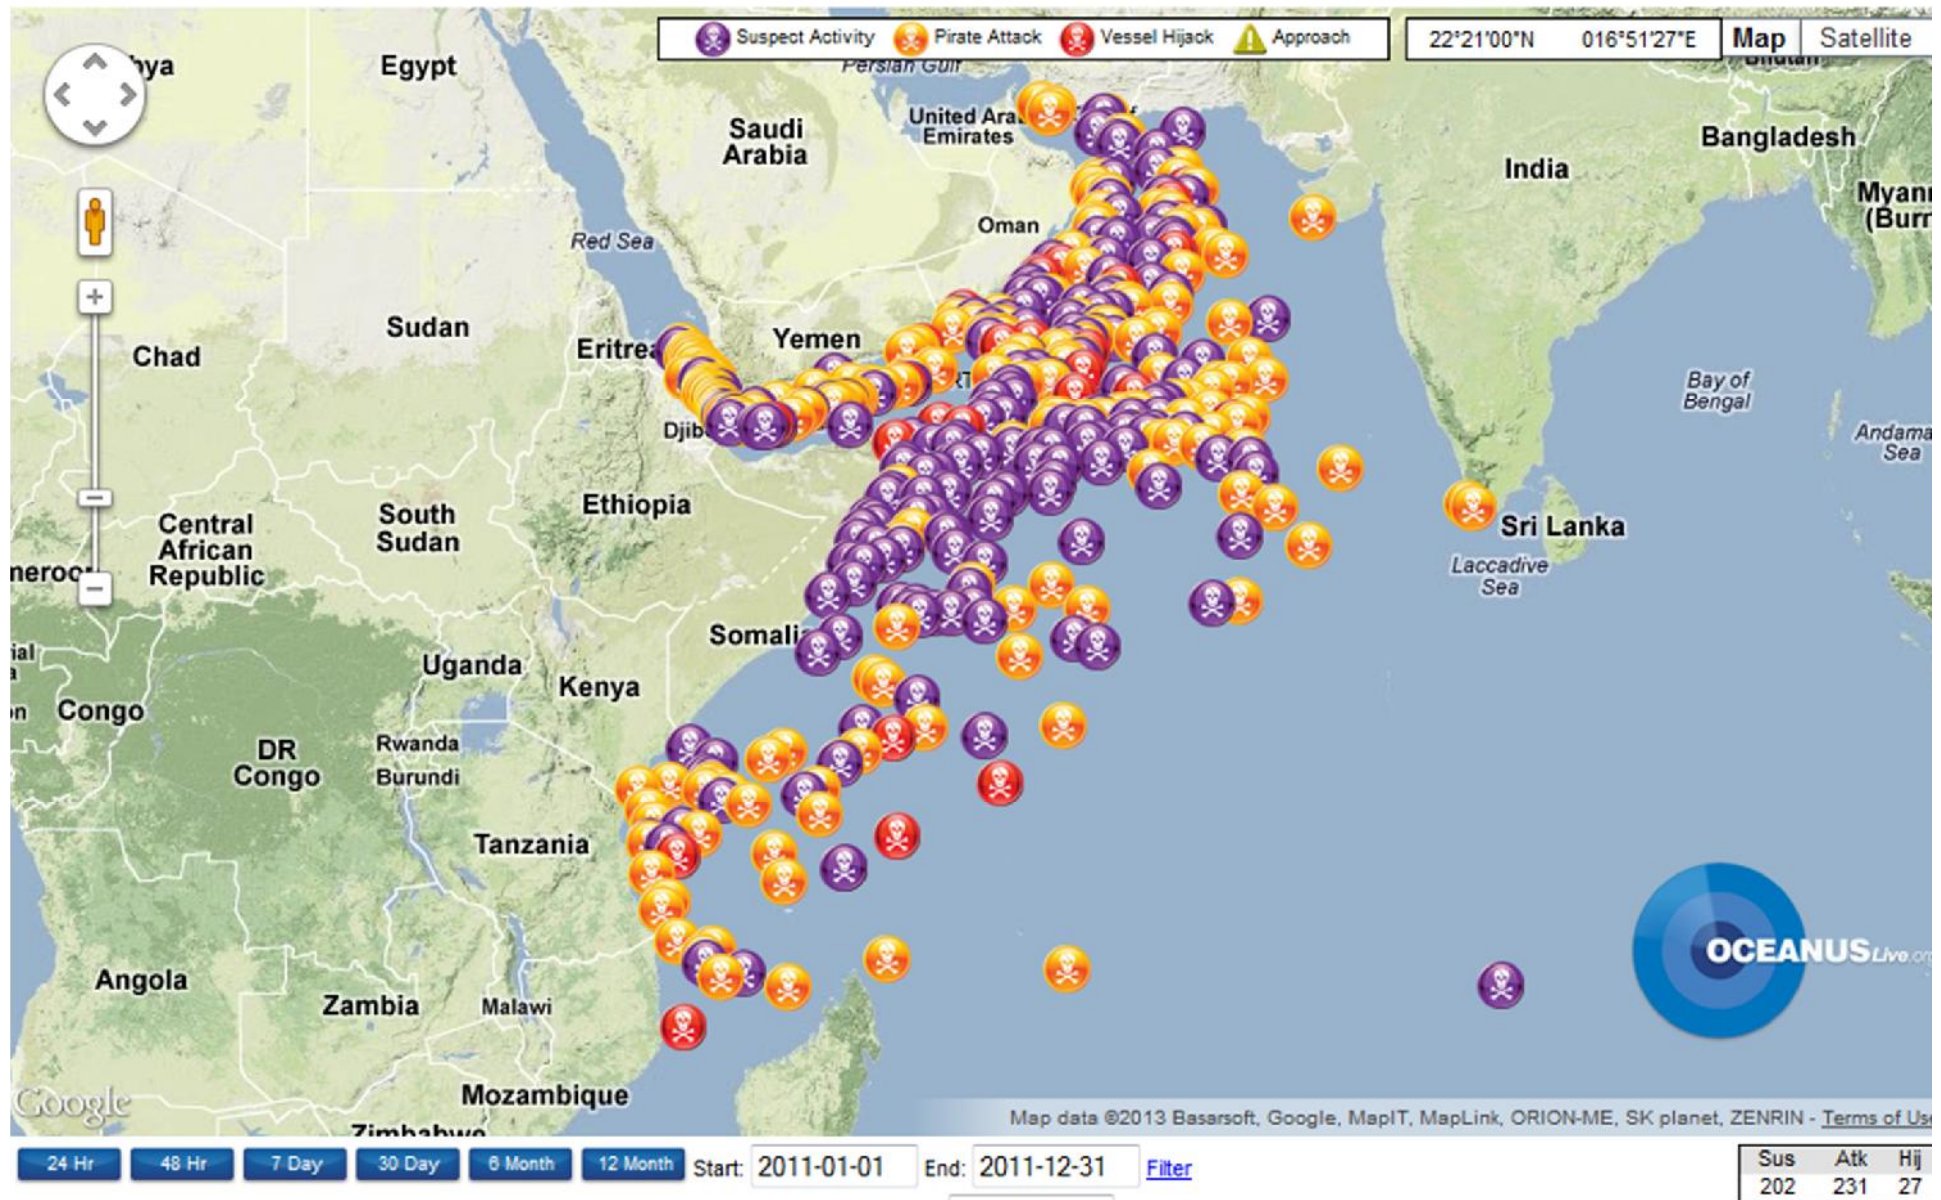

major issues

- Crucial factor for sea trade & world economy
- Piracy from SE Asia to Indian Ocean & West Africa
- Weak Government Structures
- Regional & International cooperation
- Maritime Terrorism
- Port & Infrastructure Security
- Future challenges to be faced

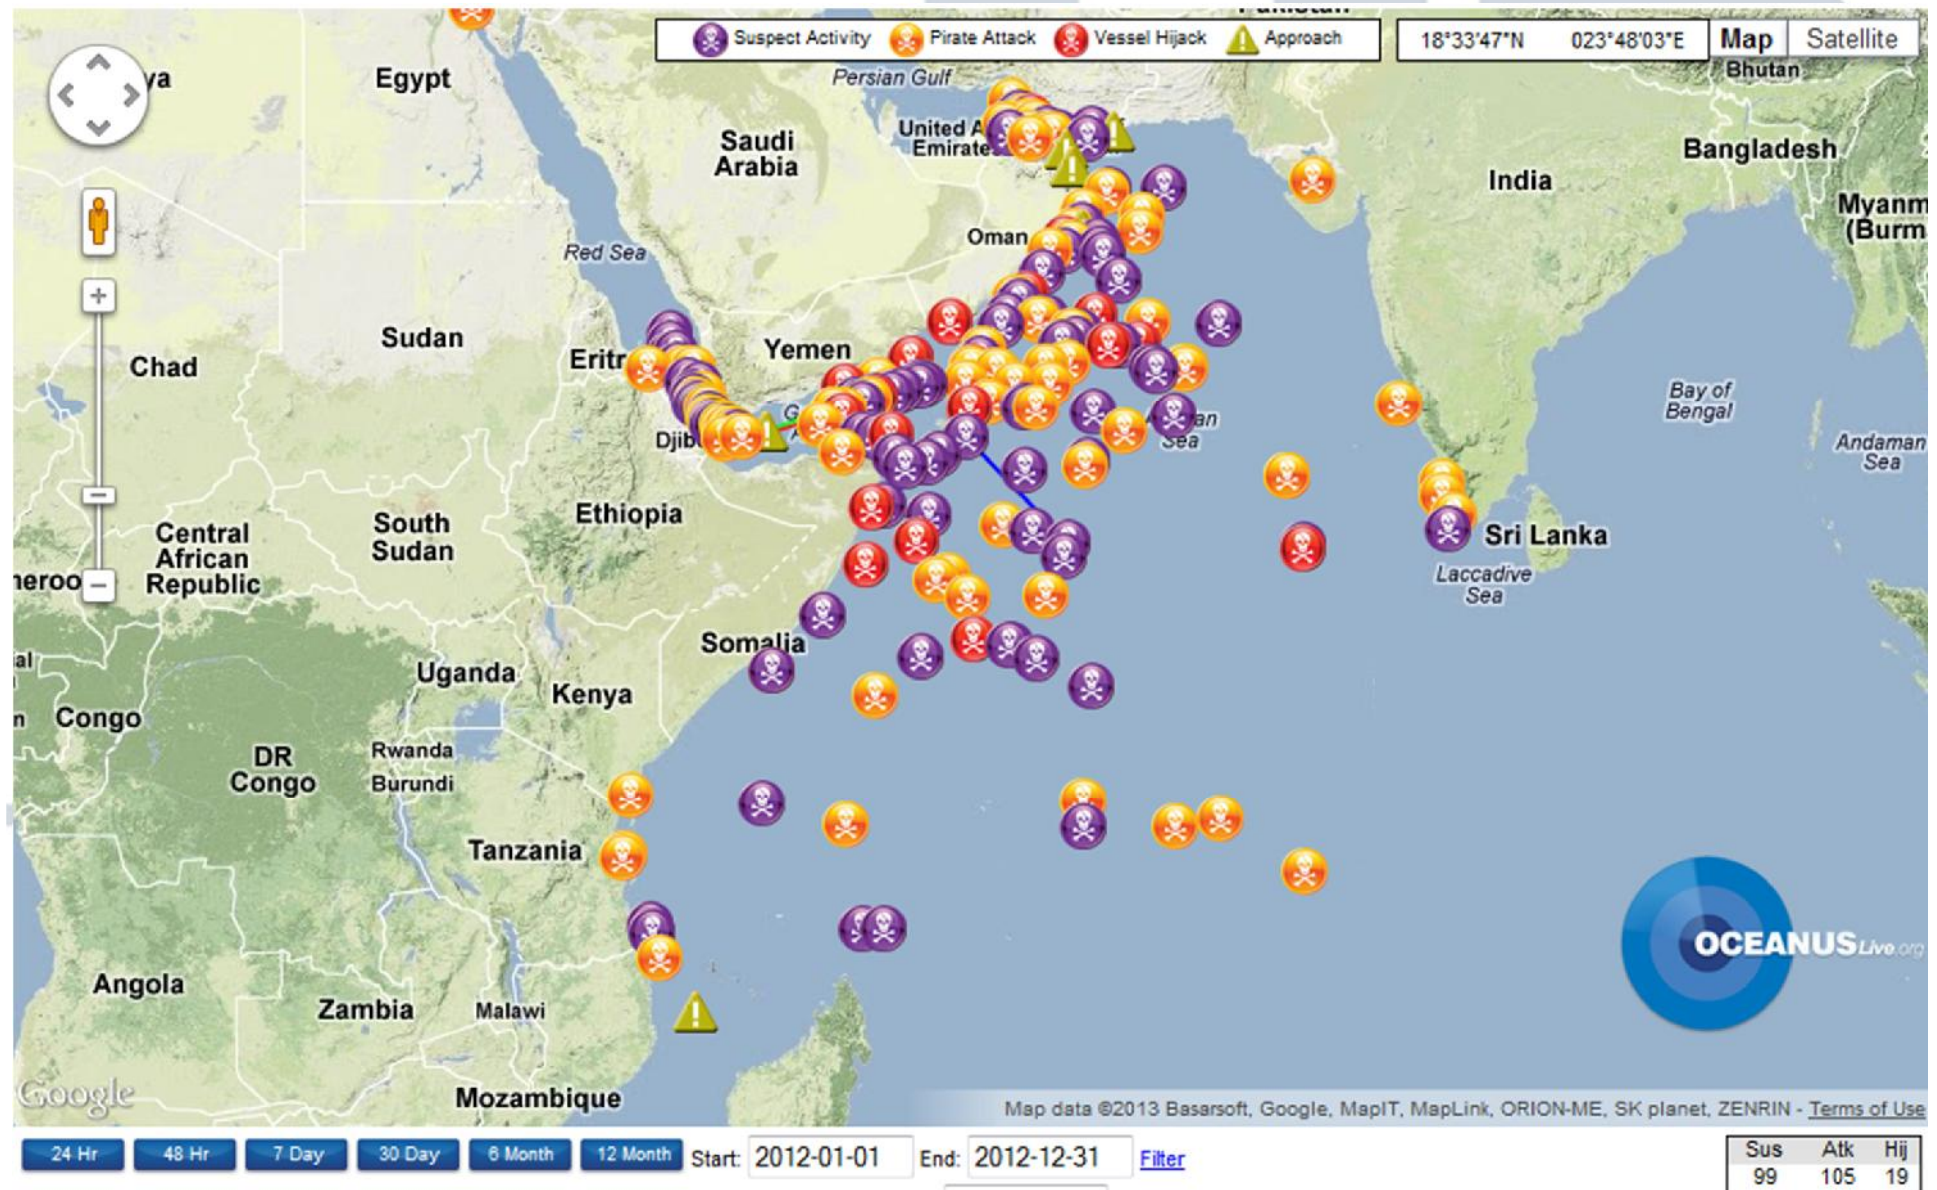

2011 – 2013 Piracy Activity

Indian Ocean HRA Incidents 2011

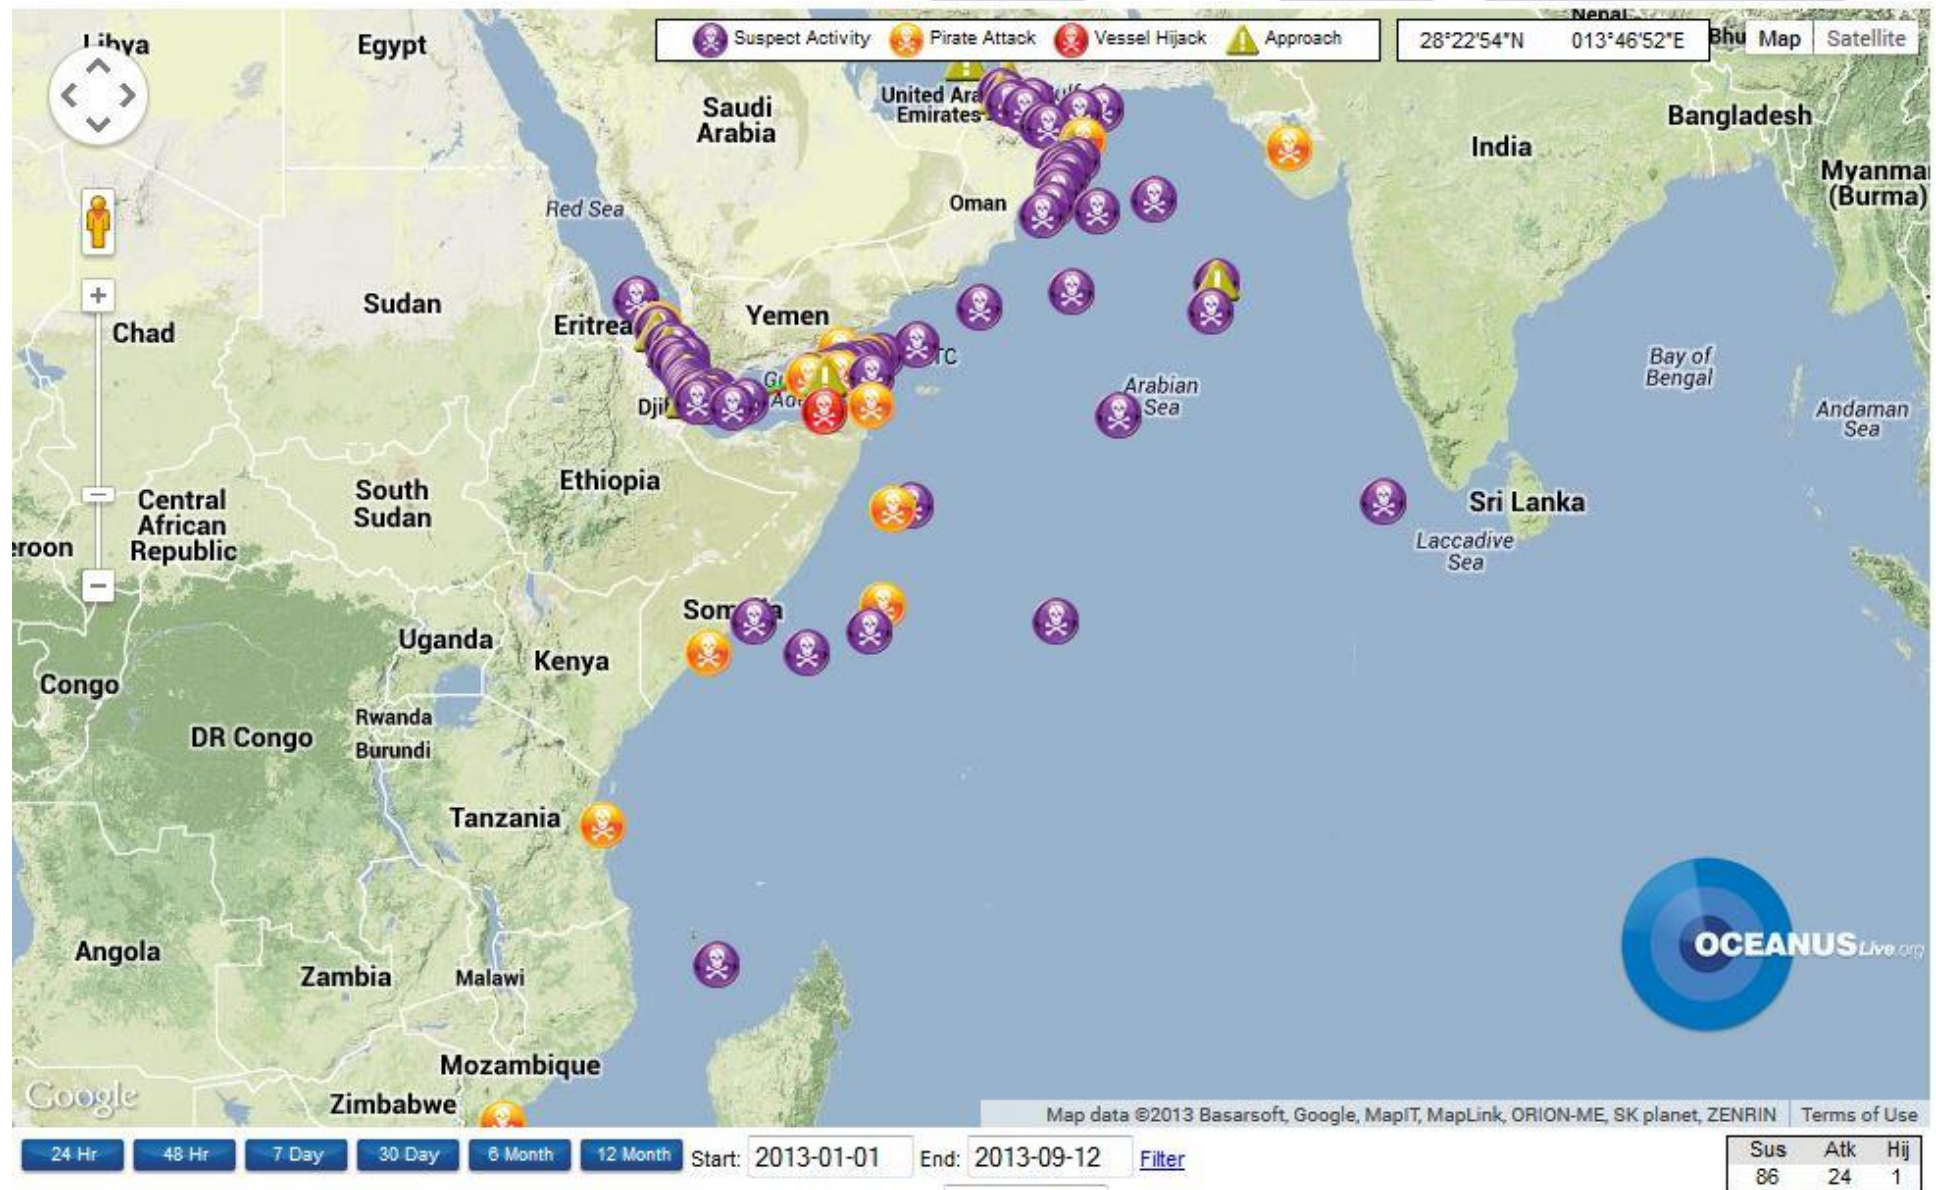

2011 – 2013 Piracy Activity

Indian Ocean HRA Incidents 2012

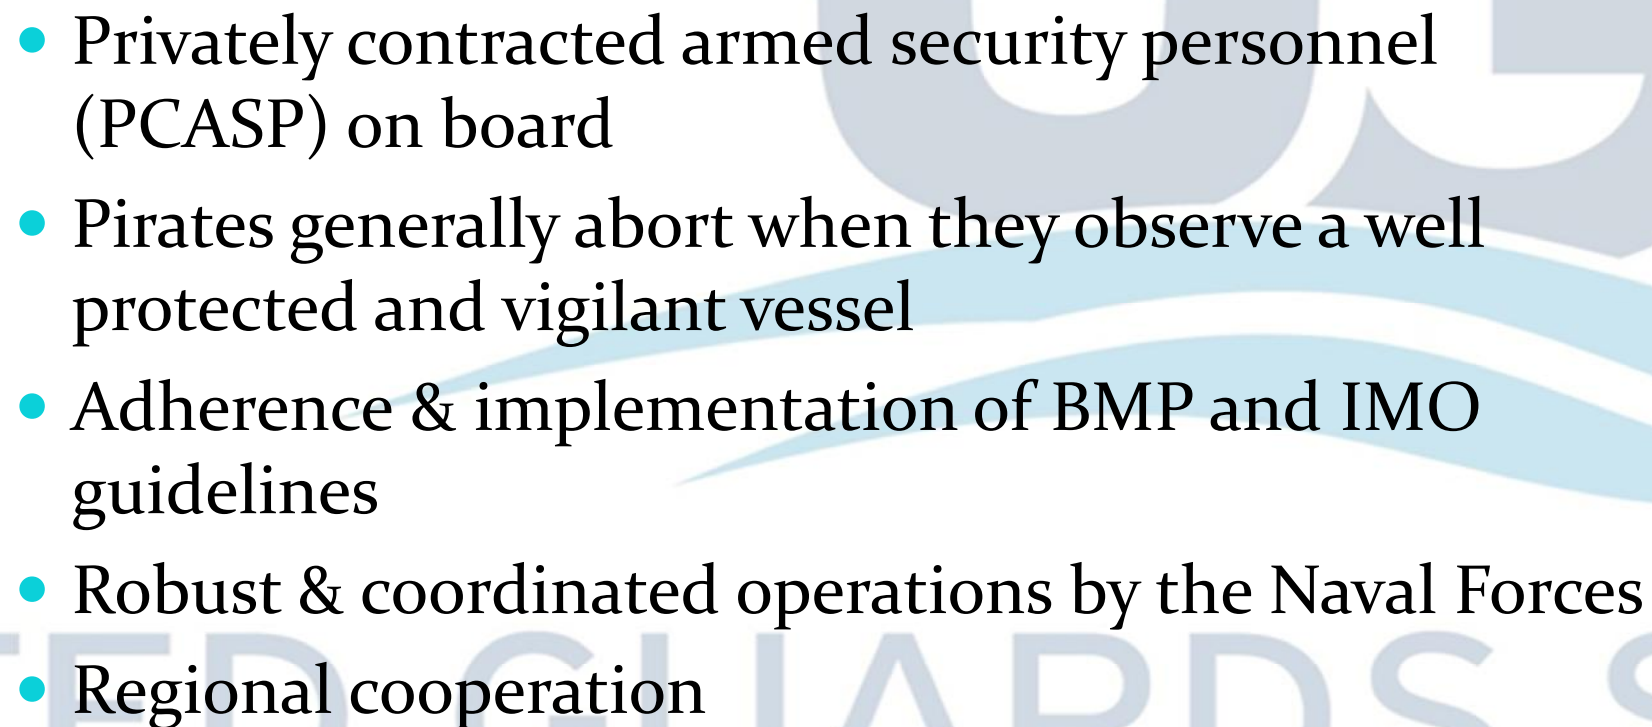

2011 – 2013 Piracy Activity

Indian Ocean HRA Incidents 2013

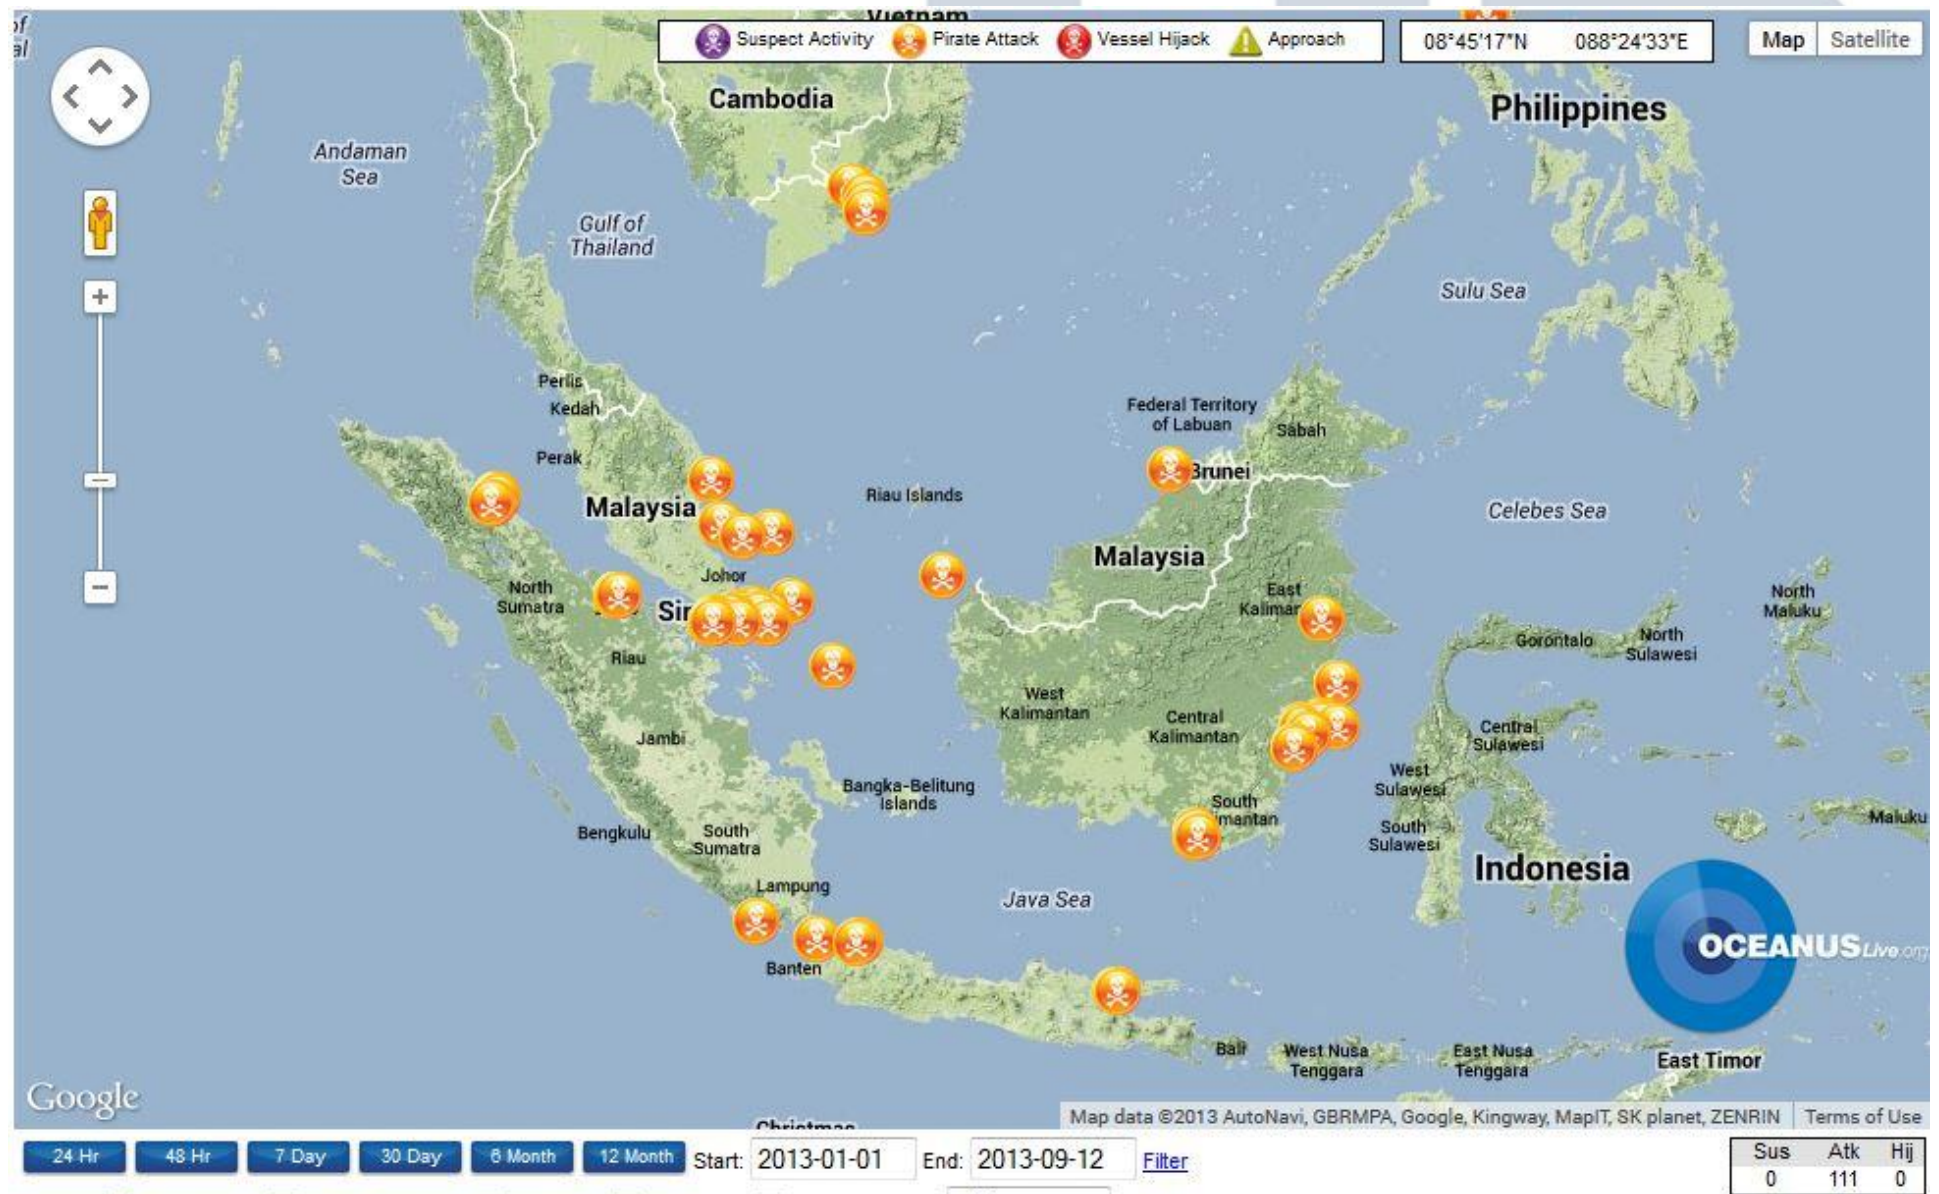

possible reasons for maritime security improvement

- Privately contracted armed security personnel (PCASP) on board
 - Pirates generally abort when they observe a well protected and vigilant vessel
 - Adherence & implementation of BMP and IMO guidelines
 - Robust & coordinated operations by the Naval Forces
 - Regional cooperation
- 

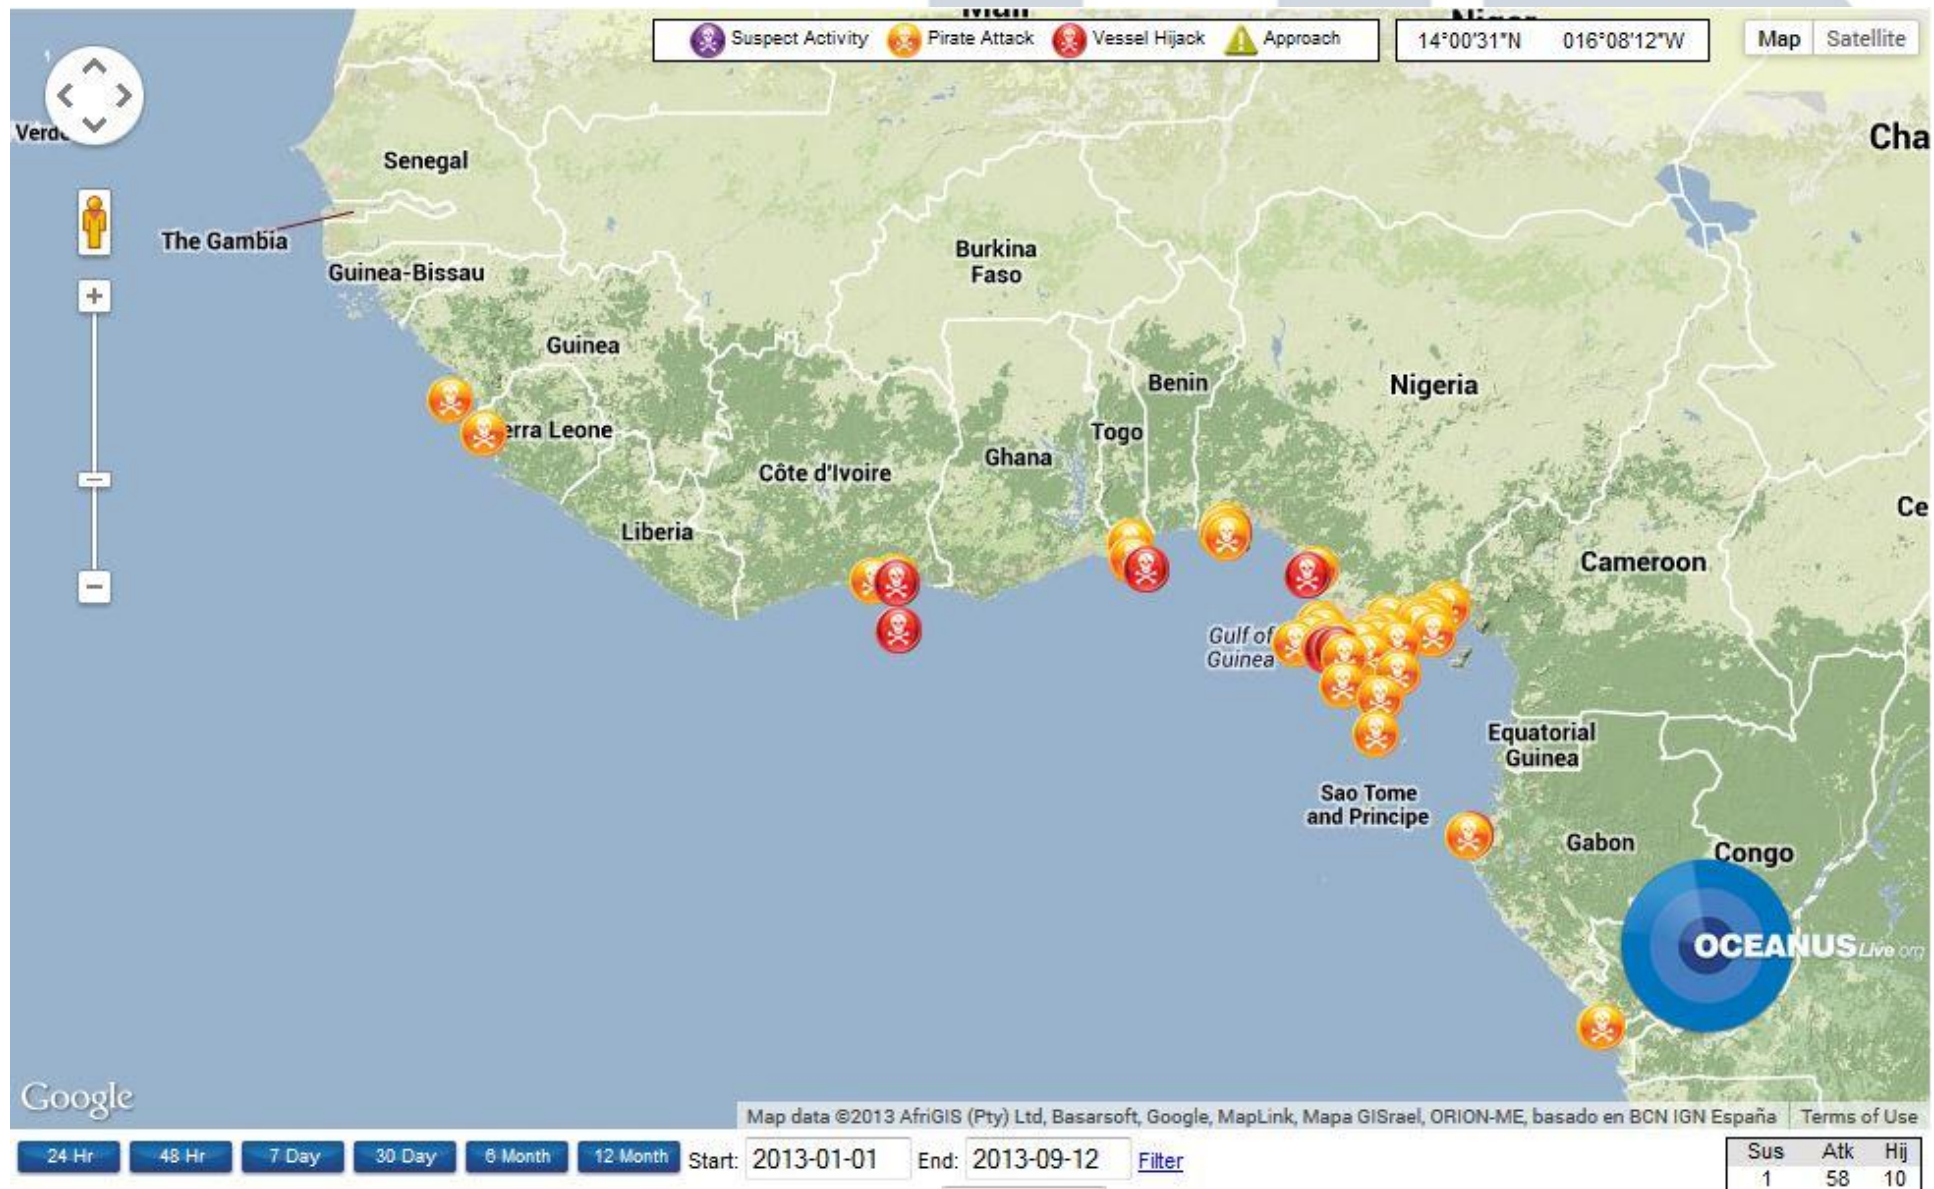

outlook – maritime risk for China-Greece main SLOC

- Piracy attacks are expected to remain low, if security measures remain high
- International economic downturn should not force for security reluctance
- Different attack formations & tactics – new modus operandi
- Seeking for easy – unprotected targets
- Very difficult to defeat pirate structures ashore
- Instability & interregional conflicts will remain

SE Asia

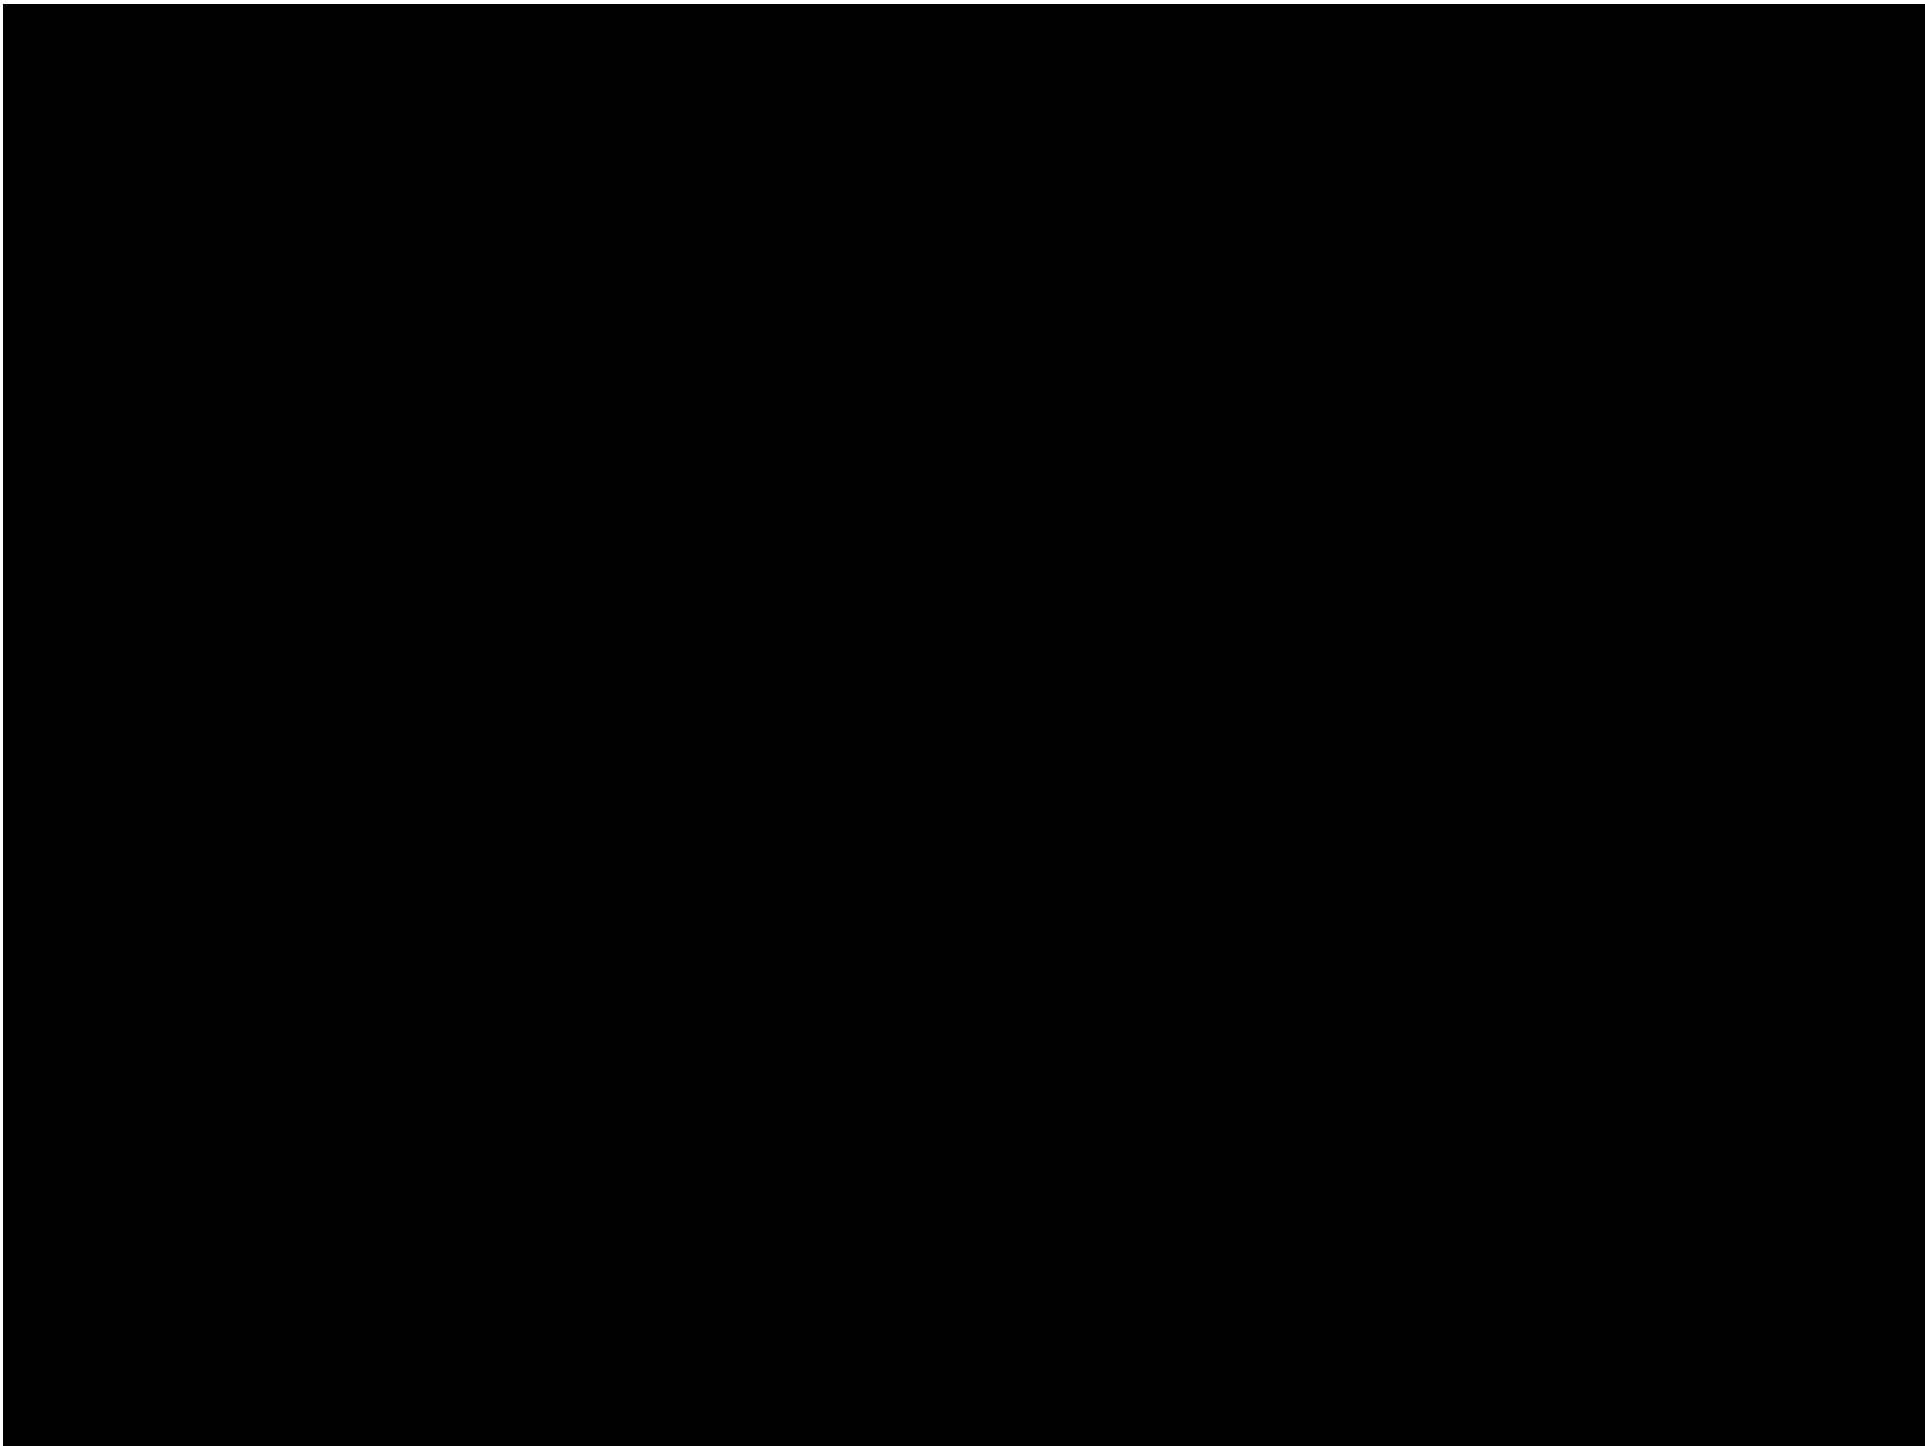

West Africa

MARSEC Standardization

- Accreditation – certification
- Transparency & compliance with laws – regulations
- Personnel selection criteria - training
- Strict quality procedures
- Robust SOP & RUF
- Due diligence - Auditing
- ISO 28007

Confidence for all stakeholders
